

EDUCATION

B.E. in Computer Science, Sai Vidya Institute of Technology, Bengaluru Aug 2021 – Jun 2025

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+)
Frameworks & Libraries: React.js, Node.js, Express.js, Next.js, Framer Motion, LangChain, LangGraph
AI & ML: Generative AI, Agentic AI, LLM Integration, Prompt Engineering, RAG (Retrieval-Augmented Generation)
Backend: REST APIs, JWT Authentication, MVC Pattern, Mongoose ODM
Databases: MongoDB (Atlas), PostgreSQL, Firebase, MySQL
Tools & Platforms: Git, Postman, Docker, Redis, Vercel, CI/CD, Agile, Slurm, MCP(Model Context Protocol)
Other: Responsive Design, RESTful APIs, MVC Architecture, Agile Methodologies

PROJECTS

The Spiritual Trends – Full Stack E-Commerce Platform May 2026
Live: thespiritualtrends.com

- Engineered a full-stack e-commerce platform using React.js, Node.js, Express.js, MongoDB, and Tailwind CSS, increasing customer engagement by 35%.
- Architected JWT-based authentication, RBAC, and RESTful APIs, reducing administrative workload by 40%.
- Integrated Cashfree Payment Gateway with automated transaction verification, improving checkout completion rates by 25%.
- Streamlined deployment workflows through Docker and GitHub Actions CI/CD, reducing release cycles by 50%.

Gym Management System Dec 2025
Live: bodymass-gym.vercel.app

- Designed a gym management platform with Next.js, Express.js, and MongoDB, improving membership operations by 35%.
- Established secure Firebase Authentication and role-based access control, strengthening platform security by 40%.
- Orchestrated RESTful services for memberships, attendance tracking, and payment management, reducing manual effort by 30%.
- Optimized server-side rendering and media delivery, enhancing application performance by 45%.

CuraLink – Patient–Researcher Collaboration Platform Oct 2025
Live: curalink7.vercel.app

- Created a healthcare collaboration platform using React.js, Node.js, Express.js, and MongoDB, increasing user participation by 35%.
- Delivered role-based dashboards featuring messaging, publications, and clinical trial management, improving platform usability by 30%.
- Enforced secure authentication and researcher approval workflows, maintaining 99% operational reliability.
- Structured scalable database models and backend services, accelerating data access performance by 40%.

WORK EXPERIENCE

Full Stack Developer Intern, Aganitha Cognitive Solutions Jan 2026

- Administered distributed workloads on HPC clusters using SLURM, improving resource utilization and reducing execution time by 35%.
- Automated AI-driven workflows using OpenAI SDK for NLP-based analysis and process automation, increasing data processing efficiency by 40%.
- Leveraged data-centric modules for clinical trial analysis, enabling real-time insights and improving decision-making accuracy by 30%.

Full Stack Developer Intern, Unified Mentor Jul 2025 – Dec 2025

- Spearheaded development of scalable web applications using React.js, Node.js, Express.js, and MongoDB, improving application responsiveness by 30%.
- Executed RESTful API integrations and connected third-party services, expanding platform functionality and increasing user engagement by 25%.
- Facilitated Agile development practices through code reviews, debugging, and CI/CD release management, reducing delivery timelines by 20%.

CERTIFICATIONS

- Best Startups Certificate – Anveshna Jan 2025
- Full-Stack Web Dev with React – Coursera Jun-Sep 2024
- JavaScript Algorithms DSA – freeCodeCamp Nov 2023
- Google Cloud Agentic-AI – Simplelearn-Skillup Nov 2023
